

Planning for our future

Photograph of the listed and protected Henry Morris building at the heart of the college

Bowmer + Kirkland has been selected by the Department for Education (DfE) as the main contractor on plans to regenerate Sawston Village College.

Sawston Village College boasts a heritage setting and unique character, however, some of the current building stock and site layout are inefficient for the demands of a modern curriculum.

The DfE has tasked Bowmer + Kirkland with planning for the future of the college; to better accommodate pupils and staff, reduce running costs, bolster the collegiate style layout, protect its historic listed buildings and provide improved facilities for the local community to share.

The project team has been working closely with the college, Anglian Learning and officers at South Cambridgeshire District Council in preparation of the proposals and would like to invite local people to review the plans at a public exhibition or via our website.
